

# Mobile Dairy Customer: Connecting Farmers to Dairy Centers

## Overview:

Mobile Dairy Customer is a free Android application developed by Mobile Dairy Software that connects farmers with dairy centers.

Designed to simplify milk collection and delivery, the platform allows farmers to register, receive notifications for collection

times, and track their milk production and earnings. Dairy centers benefit from real-time collection data and efficient inventory

management.

## Key Features:

### Milk Collection & Real-Time Updates:

- Automated Collections: Schedule and manage daily morning and evening milk collections.
- Instant Notifications: SMS alerts and immediate receipt generation keep both farmers and centers informed.

### Farmer & Inventory Management:

- Comprehensive Farmer Database: Easily add, update, or remove farmer details including mobile and bank information.
- Cattle Feed Management: Track feed inventory, purchases, and sales to ensure timely availability.

### Financial Management:

- Advance/Loan Services: Offer transparent financial support with comprehensive advance and loan management.
- Automated Payment Calculations: Process payments accurately by deducting expenses such as feed, loans, and medicines.

### Sales & Reporting:

- Milk Sales Processing: Facilitate sales to milk plants, organizations, or individual buyers.
- Detailed Reporting: Generate profit/loss reports to analyze the financial impact of each sale.

#### Operational Control:

- Multi-Center Management: Oversee multiple collection centers, including tracking the movement of collection trucks and vans.
- Multi-User Access: Enable role-based access for various team members, ensuring secure and efficient operations.
- Advanced Reporting: Access professional reports covering route, village, and vehicle management.

#### AMCU - Automatic Milk Collection Unit:

- Automation & Precision: Automate milk volume tracking, quality monitoring, and data recording to reduce manual errors.
- Key Features:
  - Easy installation and operation
  - Dual mode (fully automatic & manual collection)
  - Manual entry verification
  - Complete wireless setup using Bluetooth technology
  - Wall-mounted digital display for better visibility
  - Suitable for collection vans

#### Customer Support:

- Dedicated Assistance: Benefit from prompt, on-call customer care available throughout the year.

#### Why Choose Mobile Dairy Customer?

Mobile Dairy Customer offers a comprehensive dairy management solution with:

- Complete Accessibility: Keep all dairy records at your fingertips.
- Robust Infrastructure: Enjoy AWS cloud reliability with 99% server uptime, enhanced data security with SSL encryption, Cloudflare, and AWS.
- Continuous Support: Rely on 365 days of customer care to address your technical and operational needs.
